

The ADN-21/N is low profile fixed antenna base, it is intended for use with mobile antennas with N male connectors. It is composed of angled N female connector with reinforcement washer and hex-nut made of black pasivated stainless steel. The antenna base can be mounted trough a 5/8" (16 mm) roof/trunk lid hole. ADN-21/N has coaxial cable lenght of 4 meters and ended with FME female connector. Various adapters from FME to N, BNC, TNC, UHF, SMA, etc. are available on request.

TECHNICAL CHARACTERISTICS

Frequency range	1 - 6000 MHz
Impedance	50 ohm
Connector base	N female
Connector cable	FME female
Height	24 mm
Weight	320 g
Temp. range (Oper.)	-40...+65°C
Temp. range (Stor.)	-55...+75°C
